Use the printer

HP ePrint

Notes: HP ePrint is only supported by HP Officejet 6600 and Officejet 6610 series.

HP ePrint is a free service from HP that allows you to print to any HP ePrint-enabled printer, even when you are not at work. For more information, visit www.hp.com/go/eprint for the ePrint address assigned to your printer when you enable HP ePrint. The address will change if you change your printer.

Once you have signed up for an account at www.hp.com/go/eprint, you can sign up to use your HP ePrint job. To manage your HP ePrint printer, open www.hp.com/go/eprint.

Notes: To use HP ePrint, the printer must be connected to the Internet using wireless connection. The internet can be used because the printer is connected using a USB cable.

For more information about ePrint, visit www.hp.com/go/eprint.

Set up HP ePrint

To set up HP ePrint, complete the following steps:

Notes: If you have already installed the HP software, you do not need to set up ePrint.

1. Download HP software CD into the computer, and then follow the on-screen instructions.
 - Notes:** If the HP software cannot complete the installation, you may need to uninstall the software and then reinstall it.
2. Follow the instructions for your operating system:
 - **Windows:** When prompted, click **Next** to install the software.
 - **Mac OS X:** Double-click the HP Installer icon on the software CD, and then follow the on-screen instructions.
3. From any connected printer, select **Print** to print a test page and proceed if prompted.
 - 4. When prompted, do the following:
 - Accept the HP ePrint terms and conditions.
 - Double-click the printer to automatically download the HP ePrint software.
 - If you cannot click **Print**, click **Cancel** and then click **Print** again.
 - After the printer prints an information page, follow the instructions to finish the setup.

For more information about ePrint, visit www.hp.com/go/eprint.
